Art of the month

Title: Winter Cottage
Artist: Sanaz Noori
Technique: Soft Pastel
Year: 2022

As Winter blankets the countryside in a pristine layer of snow, there is a quite magic that settles over the landscape. This stunning soft pastel painting beautifully encapsulates that feeling — a rustic red cottage, its roof laden with fresh snow, stands nestled among towering evergreens. The blue sky contrasts with the crisp white ground, while a wooden fence in the foreground casts long, delicate shadows, evoking the soft light of a winter morning.

The use of soft pastels adds a rich depth and texture to the artwork. This piece is more than just a winter scene — it's a celebration of the artistry and emotion that soft pastels can convey. Whether it stirs memories of a cozy winter retreat or a longing for peaceful rural scenery, this artwork invites us a pause and appreciate the stillness and beauty of the season.
